NSSE
national survey of
student engagement

## Southern Oregon University

## A Summary of Student Engagement Results

Student engagement represents two critical features of collegiate quality. The first is the amount of time and effort students put into their studies and other educationally purposeful activities. The second is how institutional resources, courses, and other learning opportunities facilitate student participation in activities that matter to student learning. NSSE surveys undergraduate students in their first and final years to assess their levels of engagement and related information about their experience at your institution.

## Comparison Group

The comparison group featured in this report is

Pub4YrFT TranInclAdm
See your Selected Comparison Groups report for details.

This Snapshot is a concise collection of key findings from your institution's NSSE 2022 administration. We hope this information stimulates discussions about the undergraduate experience. Additional details about these and other results appear in the reports referenced throughout.

## Engagement Indicators

Sets of items are grouped into ten Engagement Indicators, organized under four broad themes. At right are summary results for your institution. For details, see your Engagement Indicators report.

Key:

Your students' average was significantly
A higher $(p<.05)$ with an effect size at least .3 in magnitude.

Your students' average was significantly
$\Delta$ higher ( $p<.05$ ) with an effect size less than .3 in magnitude.
-- No significant difference.

Your students' average was significantly
$\nabla$ lower $(p<.05)$ with an effect size less than .3 in magnitude.

Your students' average was significantly
$\nabla$ lower ( $p<.05$ ) with an effect size at least .3 in magnitude.

## High-Impact Practices

Due to their positive associations with student learning and retention, certain undergraduate opportunities are designated "highimpact." For more details and statistical comparisons, see your High-Impact Practices report.

| Theme | Engagement Indicator | Your students compared with Pub4YrFT TranIncIAdm |  |
| :---: | :---: | :---: | :---: |
|  |  | First-year | Senior |

|  | Discussions with Diverse Others | -- | -- |
| Experiences with Faculty | Student-Faculty Interaction | $\nabla$ | -- |
|  | Effective Teaching Practices | -- | -- |
| Campus <br> Environment | Quality of Interactions | -- | -- |
|  | Supportive Environment | $\nabla$ | $\nabla$ |

First-year
Service-Learning, Learning Community, and Research w/Faculty
Senior
Service-Learning, Learning Community, Research w/Faculty, Internship, Study Abroad, and Culminating Senior Experience

## Academic Challenge: Additional Results

The Academic Challenge theme contains four Engagement Indicators as well as several important individual items. The results presented here provide an overview of these individual items. For more information about the Academic Challenge theme, see your Engagement Indicators report. To further explore individual item results, see your Frequencies and Statistical Comparisons, the Major Field Report, the Online Institutional Report, or the Report Builder.

## Time Spent Preparing for Class

This figure reports the average weekly class preparation time for your students compared to students in your comparison group.

## Reading and Writing

These figures summarize the number of hours your students spent reading for their courses and the average number of pages of assigned writing compared to students in your comparison group. Each is an estimate calculated from two or more separate survey questions.

## Challenging Students to Do Their Best Work

To what extent did students' courses challenge them to do their best work? Response options ranged from $1=$ "Not at all" to 7 = "Very much."

## Academic Emphasis

How much did students say their institution emphasizes spending significant time studying and on academic work? Response options included "Very much," "Quite a bit," "Some," and "Very little."

NSSE
national survey of
student engagement

## Southern Oregon University

## Item Comparisons

By examining individual NSSE questions, you can better understand what contributes to your institution's performance on the Engagement Indicators. This section displays the five questions ${ }^{a}$ on which your students scored the highest and the five questions on which they scored the lowest, relative to students in your comparison group. Parenthetical notes indicate whether an item belongs to a specific Engagement Indicator or is a High-Impact Practice. While these questions represent the largest differences (in percentage points), they may not be the most important to your institutional mission or current program or policy goals, or equally available to all students. For additional results, see your Frequencies and Statistical Comparisons report.

## First-year

## Highest Performing Relative to Pub4YrFT TranInclAdm

Discussions with...People with a sexual orientation other than your own Included diverse perspectives (...) in course discussions or assignments ${ }^{\text {b }}$ (RI)
Connected your learning to societal problems or issues ${ }^{\text {b }}$ (RI)
Quality of interactions with academic advisors ${ }^{\text {d }}$ (QI)
Identified key information from reading assignments ${ }^{\text {b }}$ (LS)

## Lowest Performing Relative to Pub4YrFT TranInclAdm

Extent to which courses challenged you to do your best work ${ }^{\text {d }}$
Institution emphasis on providing support to help students succeed academically ${ }^{c}$ (SE) Institution emphasis on helping you manage your non-academic responsibilities (...) ${ }^{\text {c }}$ (SE)
Quality of interactions with other administrative staff and offices (...) ${ }^{d}$ (QI)
Institution emphasis on studying and academic work ${ }^{c}$

## Senior

Highest Performing Relative to Pub4YrFT TranInclAdm
Completed a culminating senior experience (...) (HIP)
Discussions with...People with a sexual orientation other than your own
Spent more than 15 hours per week preparing for class
Instructors taught course sessions in an organized way ${ }^{c}$ (ET)
Assigned more than 50 pages of writing ${ }^{g}$

## Lowest Performing Relative to Pub4YrFT TranIncIAdm

Discussions with... People with political views other than your own ${ }^{\text {b }}$ (DD)
Institution emphasis on attending campus activities and events (... $)^{\text {c }}$ (SE)
Institution emphasis on attending events that address important social/econ./polit. issues ${ }^{\mathrm{c}}$ (SE)
Discussions with...People from a country other than your own
Institution emphasis on helping you manage your non-academic responsibilities (...) ${ }^{\text {c }}$ (SE)

national survey of
student engagement

## Southern Oregon University

## How Students Assess Their Experience

Students' perceptions of certain aspects of cognitive and affective development, as well as their overall satisfaction with the institution, provide useful evidence of their educational experiences. For more details, see your Frequencies and Statistical Comparisons report.

## Perceived Gains Among Seniors

Students reported how much their experience at your institution contributed to their knowledge, skills, and personal development in ten areas.

## Satisfaction with SOU

Students rated their overall experience at the institution, and whether or not they would choose it again.

## Administration Details

## Response Summary

|  | Count | Resp. rate | Female | Full-time |
| ---: | ---: | ---: | ---: | ---: |
| First-year | 111 | $21 \%$ | $65 \%$ | $96 \%$ |
| Senior | 171 | $25 \%$ | $68 \%$ | $82 \%$ |

See your Administration Summary and Respondent Profile reports for more information.

## Additional Questions

Your institution administered the following additional question set(s):
Academic Advising
First-Year Experiences \& Senior Transitions
See your Topical Module report(s) for results.

## What is NSSE?

NSSE annually collects information at hundreds of four-year colleges and universities about student participation in activities and programs that promote their learning and personal development. The results provide an estimate of how undergraduates spend their time and what they gain from attending their college or university. Institutions use their data to identify aspects of the undergraduate experience that can be improved through changes in policy and practice.

NSSE has been in operation since 2000 and has been used at more than 1,600 colleges and universities in the US and Canada. More than $90 \%$ of participating institutions administer the survey on a periodic basis.

## About Your Engagement Indicators Report

Engagement Indicators (EIs) provide a useful summary of the detailed information contained in your students' NSSE responses. By combining responses to related NSSE questions, each EI offers valuable information about a distinct aspect of student engagement. Ten indicators, based on three to eight survey questions each (a total of 47 survey questions), are organized into four broad themes as shown at right. The specific items within each EI are listed below, starting on page 5 .

## Report Sections

Overview (p. 3)

Theme Reports (pp. 4-13)

| Theme | Engagement Indicator |
| :--- | :--- |
| Academic Challenge | Higher-Order Learning <br> Reflective \& Integrative Learning <br> Learning Strategies <br> Quantitative Reasoning |
| Learning with Peers | Collaborative Learning <br> Discussions with Diverse Others |
| Experiences with Faculty | Student-Faculty Interaction <br> Effective Teaching Practices |
| Campus Environment | Quality of Interactions <br> Supportive Environment |

Displays how average EI scores for your students compare with those of students at your comparison group institutions.

Detailed views of EI scores within the four themes for your students and those at comparison group institutions. Three views offer varied insights into your EI scores:

## Mean Comparisons

Straightforward comparisons of average scores between your students and those at comparison group institutions, with tests of significance and effect sizes (see below).

Score Distributions
Box-and-whisker charts show the variation in scores within your institution and comparison groups.

Performance on Indicator Items
Responses to each item in a given EI are summarized for your institution and comparison groups.
Comparisons with High-
Performing Institutions (p. 15)
Detailed Statistics (pp. 16-19)

Comparisons of your students' average scores on each EI with those of students at institutions whose average scores were in the top $50 \%$ and top $10 \%$ of 2021 and 2022 participating institutions.

Detailed information about EI score means, distributions, and tests of statistical significance.

## Interpreting Comparisons

Mean comparisons report both statistical significance and effect size. Effect size indicates the practical importance of an observed difference. For EI comparisons, NSSE research has concluded that an effect size of about .1 may be considered small, . 3 medium, and .5 large (Rocconi \& Gonyea, 2018). Comparisons with an effect size of at least . 3 in magnitude (before rounding) are highlighted in the Overview (p. 3).

EIs vary more among students within an institution than between institutions, like many experiences and outcomes in higher education. As a result, focusing attention on average scores alone amounts to examining the tip of the iceberg. It's equally important to understand how student engagement varies within your institution. Score distributions indicate how EI scores vary among your students and those in your comparison groups. Your NSSE Tableau dashboards and Report Builder (released in the fall) offer valuable perspectives on internal variation and help you investigate your students' engagement in depth.

## How Engagement Indicators are Computed

Each EI is scored on a 60-point scale. To produce an indicator score, the response set for each item is converted to a 60-point scale (e.g., Never $=0$; Sometimes $=20$; Often $=40$; Very often $=60$ ), and the rescaled items are averaged. Thus a score of zero means a student responded at the bottom of the scale for every item in the EI, while a score of 60 indicates responses at the top of the scale on every item.

For more information on EIs and their psychometric properties, refer to the NSSE website: nsse.indiana.edu
Rocconi, L.M., \& Gonyea, R.M. (2018). Contextualizing effect sizes in the National Survey of Student Engagement: An empirical analysis.Research \& Practice in Assessment, 13 (Summer/Fall), pp. 22-38.

# NSSE 2022 Engagement Indicators 

## Overview <br> Southern Oregon University

## Engagement Indicators: Overview

Engagement Indicators are summary measures based on sets of NSSE questions examining key dimensions of student engagement. The ten indicators are organized within four broad themes: Academic Challenge, Learning with Peers, Experiences with Faculty, and Campus Environment. The tables below compare average scores for your students with those in your comparison groups. Use the following key:

- Your students' average was significantly higher ( $p<.05$ ) with an effect size at least .3 in magnitude.
$\triangle$ Your students' average was significantly higher ( $p<.05$ ) with an effect size less than .3 in magnitude.
-- No significant difference.
$\nabla$ Your students' average was significantly lower ( $p<.05$ ) with an effect size less than .3 in magnitude.
$\nabla$ Your students' average was significantly lower ( $p<.05$ ) with an effect size at least .3 in magnitude.
Note: It is important to interpret the direction of differences relative to your institutional context. You may not see all of these symbols in your report.

# Academic Challenge <br> Southern Oregon University 

## Academic Challenge: First-year students

Challenging intellectual and creative work is central to student learning and collegiate quality. Colleges and universities promote student learning by challenging and supporting them to engage in various forms of deep learning. Four Engagement Indicators are part of this theme: Higher-Order Learning, Reflective \& Integrative Learning, Learning Strategies, and Quantitative Reasoning. Below and on the next page are three views of your results alongside those of your comparison groups.

| Mean Comparisons | SOU | Your first-year students compared with |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | Pub4YrFT TranInclAdm |  | PubBal A\&S wSomeGrad |  | Pub4YrPrim UG<10000 |  |
|  | Mean | Mean | Effect size | Mean | Effect <br> size | Mean | Effect size |
| Higher-Order Learning | 39.0 | 36.8 | . 16 | 37.3 | . 13 | 37.4 | . 12 |
| Reflective \& Integrative Learning | 38.0 | 35.4 | . 21 | 35.2 * | . 22 | 35.3 * | . 22 |
| Learning Strategies | 37.6 | 37.7 | -. 01 | 37.8 | -. 01 | 37.7 | -. 01 |
| Quantitative Reasoning | 27.0 | 28.1 | -. 07 | 28.6 | -. 10 | 28.7 | -. 11 |

Notes: Results weighted by institution-reported sex and enrollment status (and institution size for comparison groups); Effect size: Mean difference divided by pooled standard deviation; Symbols on the Overview page are based on effect size and p before rounding; ${ }^{*} \mathrm{p}<.05,{ }^{* *} \mathrm{p}<.01,{ }^{* * *} \mathrm{p}<.001$ (2-tailed).

## Performance on Indicator Items

The table below displays how your students responded to each EI item, and the difference, in percentage points, between your students and those of your comparison group. Blue bars indicate how much higher your institution's percentage is from that of the comparison group. Dark red bars indicate how much lower your institution's percentage is from that of the comparison group.
Higher-Order Learning

## Reflective \& Integrative Learning

Percentage of students who responded that they "Very often" or "Often"...
2a. Combined ideas from different courses when completing assignments
2b. Connected your learning to societal problems or issues
Included diverse perspectives (political, religious, racial/ethnic, gender, etc.) in course
2c. discussions or assignments
2d. Examined the strengths and weaknesses of your own views on a topic or issue
Tried to better understand someone else's views by imagining how an issue looks from his . or her perspective
$2 f$. Learned something that changed the way you understand an issue or concept

2 g . Connected ideas from your courses to your prior experiences and knowledge

+8

## Learning Strategies

Percentage of students who responded that they "Very often" or "Often"...
9a. Identified key information from reading assignments

9b. Reviewed your notes after class

9c. Summarized what you learned in class or from course materials
81
62
64

## Quantitative Reasoning

Percentage of students who responded that they "Very often" or "Often"...
6ached conclusions based on your own analysis of numerical information (numbers,
6a. graphs, statistics, etc.)
Used numerical information to examine a real-world problem or issue (unemployment,
6b. climate change, public health, etc.)
$6 c$. Evaluated what others have concluded from numerical information
46
46
36

Notes: Refer to your Frequencies and Statistical Comparisons report for full distributions and significance tests. Item numbering corresponds to the survey facsimile available on the NSSE website.
a. Percentage point difference = Institution percentage- Comparison group percentage. Because results are rounded to whole numbers, differences of less than 1 point may or may not display a bar. Small, but nonzero differences may be represented as +0 or -0 .

| 1e. Worked with other students on course projects or assignments | 56 | \| -2 | \| -1 | - -5 |

## Discussions with Diverse Others

Percentage of students who responded that they "Very often" or "Often" had discussions with..
8a. People of a race or ethnicity other than your own
8b. People from an economic background other than your own
8c. People with religious beliefs other than your own
8d. People with political views other than your own

|  | -3 | -2 |  | -4 |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| +3 | +4 | +3 |  |  |  |
| +2 |  | +2 |  | +1 |  |
|  | -13 |  | -11 |  | -12 |

Notes: Refer to your Frequencies and Statistical Comparisons report for full distributions and significance tests. Item numbering corresponds to the survey facsimile available on the NSSE website.
a. Percentage point difference = Institution percentage-Comparison group percentage. Because results are rounded to whole numbers, differences of less than 1 point may or may not display a bar. Small, but nonzero differences may be represented as +0 or -0 .

## Experiences with Faculty <br> Southern Oregon University

## Experiences with Faculty: First-year students

Students learn firsthand how experts think about and solve problems by interacting with faculty members inside and outside of instructional settings. As a result, faculty become role models, mentors, and guides for lifelong learning. In addition, effective teaching requires that faculty deliver course material and provide feedback in student-centered ways. Two Engagement Indicators investigate this theme: Student-Faculty Interaction and Effective Teaching Practices. Below are three views of your results alongside those of your comparison groups.

NSSE
national survey of student engagement

# NSSE 2022 Engagement Indicators 

## Comparisons with High-Performing Institutions Southern Oregon University

## Comparisons with Top 50\% and Top 10\% Institutions

While NSSE's policy is not to rank institutions (see go.iu.edu/NSSE-PnP), the results below are designed to compare the engagement of your students with those attending two groups of institutions identified by NSSE ${ }^{\text {a }}$ for their high average levels of student engagement:
(a) institutions with average scores placing them in the top $50 \%$ of all 2021 and 2022 NSSE institutions, and
(b) institutions with average scores placing them in the top $10 \%$ of all 2021 and 2022 NSSE institutions.

While the average scores for most institutions are below the mean for the top $50 \%$ or top $10 \%$, your institution may show areas of distinction where your average student was as engaged as (or even more engaged than) the typical student at high-performing institutions. A check mark $(\checkmark)$ signifies those comparisons where your average score was at least comparable ${ }^{b}$ to that of the high-performing group. However, the presence of a check mark does not necessarily mean that your institution was a member of that group.

It should be noted that most of the variability in student engagement is within, not between, institutions. Even "high-performing" institutions have students with engagement levels below the average for all institutions.

a. Results weighted by institution-reported sex and enrollment status (and institutional size for comparison groups).
b. Standard deviation is a measure of the amount the individual scores deviate from the mean of all the scores in the distribution.
c. Standard error of the mean, used to compute a confidence interval (CI) around the sample mean. For example, the $95 \%$ CI (equal to the sample mean $+/-1.96 \mathrm{x}$ SE) is the range that is $95 \%$ likely to contain the true population mean.
d. A percentile is the point in the distribution of student-level EI scores at or below which a given percentage of EI scores fall.
e. Degrees of freedom used to compute the t-tests. Values vary from the total Ns due to weighting and whether equal variances were assumed.
f. Statistical significance represents the probability that the difference between the mean of your institution and that of the comparison group occurred by chance.
g. Effect size is the mean difference divided by the pooled standard deviation.

a. Results weighted by institution-reported sex and enrollment status (and institutional size for comparison groups).
b. Standard deviation is a measure of the amount the individual scores deviate from the mean of all the scores in the distribution.
c. Standard error of the mean, used to compute a confidence interval (CI) around the sample mean. For example, the $95 \%$ CI (equal to the sample mean $+/-1.96 \times \mathrm{SE}$ ) is the range that is $95 \%$ likely to contain the true population mean.
d. A percentile is the point in the distribution of student-level EI scores at or below which a given percentage of EI scores fall.
e. Degrees of freedom used to compute the t-tests. Values vary from the total Ns due to weighting and whether equal variances were assumed.
f. Statistical significance represents the probability that the difference between the mean of your institution and that of the comparison group occurred by chance.
g. Effect size is the mean difference divided by the pooled standard deviation.

High-Impact Practices
Southern Oregon University

NSSE
national survey of student engagement

## About Your High-Impact Practices Report

Due to their positive associations with student learning and retention, certain undergraduate opportunities are designated "high-impact." High-Impact Practices (HIPs) share several traits: They demand considerable time and effort, facilitate learning outside of the classroom, require meaningful interactions with faculty and students, encourage collaboration with diverse others, and provide frequent and substantive feedback. As a result, participation in these practices has the potential to be very influential and rewarding (Kilgo et al., 2015; Kuh, 2008). NSSE founding director George Kuh recommends that institutions should aspire for all students to participate in at least two HIPs over the course of their undergraduate experience-one during the first year and one in the context of their major (NSSE, 2007).

NSSE asks students about their participation in the six HIPs shown in the box at right. Unlike most questions on the NSSE survey, the HIP questions are not limited to the current school year. Thus, senior students' responses include participation from prior years.

## High-Impact Practices in NSSE

## Service-Learning

Courses that included a community-based project

## Learning Community

Formal program where groups of students take two or more classes together

## Research with Faculty

Work with a faculty member on a research project
Internship or Field Experience
Internship, co-op, field experience, student teaching, or clinical placement

## Study Abroad

Culminating Senior Experience
Capstone course, senior project or thesis, portfolio, recital, comprehensive exam, etc.

## Report Sections

Participation Comparisons (p. 3)

Response Detail (pp. 4-5)

Participation by Student Social Identities and Experiences (p. 6)

Displays HIP participation for your students compared with that of students at your comparison group institutions. Two views present insights into your students' HIP participation:

## Overall HIP Participation

Displays the percentage of students who participated in one HIP and in two or more HIPs, relative to those at your comparison group institutions.

## Statistical Comparisons

Comparisons of participation in each HIP and overall for your students relative to those at comparison group institutions, with tests of significance and effect sizes.

Provides complete response frequencies for the relevant HIP questions for your students and those at your comparison group institutions. First-year results include a summary of their expectations for future HIP participation.

Displays your students' participation in each HIP by selected student social identities and experiences.

## Interpreting Comparisons

HIP participation varies more among students within an institution than it does between institutions, like many experiences and outcomes in higher education. As a result, focusing attention on overall participation rates amounts to examining the tip of the iceberg. It is equally important to understand how student engagement (including HIP participation) varies within your institution. The table on page 6 provides an initial look at how HIP participation varies by selected student social identities and experiences. Your NSSE Tableau dashboard and Report Builder (released in the fall) offer further perspectives on internal variation to help you investigate your students' HIP participation in depth.

national survey of student engagement

## Participation Comparisons <br> Southern Oregon University

## Overall HIP Participation

The figures below display the percentage of students who participated in High-Impact Practices. Both figures include participation in service-learning, a learning community, and research with faculty. The senior figure also includes participation in an internship or field experience, study abroad, and culminating senior experience. The first segment in each bar shows the percentage who participated in at least two HIPs, and the full bar (both colors) represents the percentage who participated in at least one.

## Statistical Comparisons

The table below displays the percentage of your students who participated in a given High-Impact Practice, including the percentage who participated in at least one or in two or more HIPs. It also graphs the difference, in percentage points, between your students and those of your comparison groups. Blue bars indicate how much higher your institution's percentage is compared to the comparison group. Dark red bars indicate how much lower your institution's percentage is compared to the comparison group. (Comparison group percentages appear on the following pages.)

Your students' participation compared with:

| SOU | 7 | 14 |
| Pub4YrFT TranlnclAdm | 9 | 31 |
| PubBal A\&S wSomeGrad | 10 | 28 |
| Pub4YrPrim UG<10000 | 11 | 28 |

## Research with a Faculty Member

Work with a faculty member on a research project.

| SOU Done or in progress | \% Plan to do |  |
| ---: | ---: | ---: |
| Pub4YrFT TranInclAdm | 5 | 21 |
| PubBal A\&S wSomeGrad | 5 | 28 |
| Pub4YrPrim UG<10000 | 5 | 30 |

## Plans to Participate ${ }^{\text {a }}$

Knowing whether first-year students plan to participate in upper-division HIPs can reveal insights about HIP demand, awareness of opportunities, and the clarity of institutional information. These results might also point to topics for additional exploration, such as what contributes to students' expectations, their assumptions about who can participate, or why other students are undecided or have no plans to participate in the activity.

## Internship or Field

## Experience

Participate in an internship, co-op, field experience, student teaching, or clinical placement.

## Percentage responding "Plan to do"

## Culminating Senior

 ExperienceComplete a culminating senior experience (capstone course, senior project or thesis, portfolio, recital, comprehensive exam, etc.).
a. Refer to your Frequencies and Statistical Comparisons for details on the other response options.

Note: Results weighted by institution-reported sex and enrollment status (and institutional size for comparison groups).

# NSSE 2022 Topical Module Report First-Year Experiences \& Senior Transitions Southern Oregon University 

This module includes a set of items only for first-year students and a set only for seniors, with questions adapted from the Beginning College Survey of Student Engagement and the Strategic National Arts Alumni Project, respectively. The first-year items focus on academic perseverance, help-seeking behaviors, and institutional commitment, while the senior items explore post-graduation plans, links between the academic major and future plans, and confidence with skills developed during college.

Comparison group details are in the online Selected Comparison Groups report, linked in the Data \& Reports table on the Institution Interface. A PDF copy is also saved in your report download folder.

This page intentionally left blank.

## Frequencies and Statistical Comparisons: Senior Transitions Southern Oregon University

## Seniors

1a. [Excludes those who answered "No," not expecting spring/summer graduation] After graduation, what best describes your immediate plans?

| FYSsr01a | - | Full-time employment | 38 | 48 | 2,199 | 62 |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | - | Part-time employment | 7 | 9 | 219 | 5 |
|  | - | Graduate or professional school | 20 | 24 | 690 | 18 |
|  | - | Military service | 0 | 0 | 21 | 1 |
|  | - | Service or volunteer activity (AmeriCorps, Peace Corps, Teach for America, etc.) | 0 | 0 | 12 | 0 |
|  | - | Internship (paid or unpaid) | 2 | 2 | 158 | 4 |
|  | - | Travel or gap year | 6 | 8 | 149 | 4 |
|  | - | No plans at this time | 1 | 1 | 146 | 4 |
|  | - | Other, please specify: | 6 | 7 | 88 | 2 |
|  |  | Total | 80 | 100 | 3,682 | 100 |

1b. [If immediate plans included full- or part-time employment] Do you already have a job for after graduation?

| FYSsr01b | No | 19 | 43 | 1,167 | 49 | 57\% | 51\% |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| (Means indicate the percentage who responded "Yes.") | Yes, I will start a new job | 8 | 17 | 563 | 24 |  |  |  |
|  | Yes, I will continue in my current job | 18 | 40 | 669 | 28 |  |  | . 47 |
|  | Total | 45 | 100 | 2,399 | 100 |  |  |  |

2. [Excludes those who answered "No," not expecting spring/summer graduation] To what extent have courses in your major(s) prepared you for your post-graduation plans?

| FYSsr02 | 1 | Very little | 2 | 2 | 202 | 5 |
| :--- | :--- | :--- | ---: | ---: | ---: | ---: |
| 2 | Some | 22 | 27 | 757 | 21 |  |
|  | 3 | Quite a bit | 33 | 42 | 1,371 | 37 |
|  | 4 | Very much | 23 | 28 | 1,330 | 37 |
|  | Total | 80 | 100 | 3,660 | 100 |  |

3. Do you intend to work eventually in a field related to your major(s)?

| FYSsr03 | Yes | 117 | 90 | 4,332 | 87 |  |  |
| :---: | :--- | ---: | ---: | ---: | ---: | ---: | ---: |
| (Means indicate the | No | 2 | 1 | 175 | 4 | $\mathbf{9 0 \%}$ | $87 \%$ |
| percentage who | Unsure | 10 | 8 | 435 | 9 |  | .28 |
| responded "Yes.") | Total | 129 | 100 | 4,942 | 100 |  |  |

4. Do you plan to be self-employed, an independent contractor, or a freelance worker someday?

| FYSsr04 | Yes | 36 | 29 | 939 | 19 |  |  |
| :---: | :--- | ---: | ---: | ---: | ---: | ---: | ---: |
| (Means indicate the | No | 58 | 44 | 2,680 | 54 | $\mathbf{2 9 \%}$ | $19 \%^{* *}$ |

9. Is there anything your institution could have done better to prepare you for your career or further education? Please describe.

This final question asked students to respond in an open text box. Comments were recorded for 33 seniors. Responses are provided in your NSSE22 Student Comments Report and in a separate SPSS data file.

These open-ended responses appear exactly as respondents entered them and may not be suitable for distribution without prior review.

# Endnotes <br> Southern Oregon University 

## Endnotes

a. Column percentages are weighted by institution-reported sex and enrollment status (and institution size for comparison groups). Percentages may not sum to 100 due to rounding. Counts are unweighted; column percentages cannot be replicated from counts. Comparison group details are in the Selected Comparison Groups report, linked in the Data \& Reports table on the Institution Interface.
b. All statistics are weighted by institution-reported sex and enrollment status (and institution size for comparison groups). Unless otherwise noted, statistical comparisons are two-tailed independent t-tests. Items with categorical response sets are left blank.
c. These are the values used to calculate means. For the majority of items, these values match the codes in the data file and codebook.
d. Effect size for independent $t$-tests uses Cohen's $d$; z-tests use Cohen's $h$.
e. Statistics are weighted by institution-reported sex and enrollment status (and institution size for comparison groups). Categorical items are not listed.
f. The $95 \%$ confidence interval for the population mean is equal to the sample mean plus or minus 1.96 times the standard error of the mean.
g. A measure of the amount individual scores deviate from the mean of all the scores in the distribution.
h. Degrees of freedom used to compute the t-tests. Values differ from Ns due to weighting and whether equal variances were assumed.
i. Statistical comparisons are two-tailed independent $t$-tests or $z$-tests. Statistical significance represents the probability that the difference between your students' mean and that of the students in the comparison group is due to chance.
j. Statistical comparison uses $z$ - test to compare the proportion who responded (depending on the item) "Done or in progress" or "Yes" with all who responded otherwise.
k. Mean represents the proportion who responded (depending on the item) "Done or in progress" or "Yes."

Key to symbols:

- Your students' average was significantly higher ( $\mathrm{p}<.05$ ) with an effect size at least .3 in magnitude.
$\Delta$ Your students' average was significantly higher ( $\mathrm{p}<.05$ ) with an effect size less than .3 in magnitude.
$\nabla \quad$ Your students' average was significantly lower ( $\mathrm{p}<.05$ ) with an effect size less than .3 in magnitude.
- Your students' average was significantly lower ( $\mathrm{p}<.05$ ) with an effect size at least .3 in magnitude.

Note: It is important to interpret the direction of differences relative to item wording and your institutional context. You may not see all of these symbols in your report.

This page intentionally left blank.

# NSSE 2022 Topical Module Report Academic Advising Southern Oregon University 

This module examines students' experiences with academic advising, including frequency of interaction with advisors and advising practices that reflect NACADA core values. It also asks students to identify who has been most helpful. The module complements a question on the core survey about the quality of students' interactions with academic advisors.

Comparison group details are in the online Selected Comparison Groups report, linked in the Data \& Reports table on the Institution Interface. A PDF copy is also saved in your report download folder.

This page intentionally left blank.

## 6. Regarding academic advising, who has been the most helpful and in what way?

This final question asked students to respond in an open text box. Comments were recorded for 36 first-year students and 75 seniors. Responses are provided in your NSSE22 Student Comments Report and in a separate SPSS data file.

These open-ended responses appear exactly as respondents entered them and may not be suitable for distribution without prior review.

NSSE
national survey of student engagement

# NSSE 2022 Academic Advising <br> Endnotes <br> Southern Oregon University 

## Endnotes

a. Column percentages are weighted by institution-reported sex and enrollment status (and institution size for comparison groups). Percentages may not sum to 100 due to rounding. Counts are unweighted; column percentages cannot be replicated from counts. Comparison group details are in the Selected Comparison Groups report, linked in the Data \& Reports table on the Institution Interface.
b. All statistics are weighted by institution-reported sex and enrollment status (and institution size for comparison groups). Unless otherwise noted, statistical comparisons are two-tailed independent t-tests. Items with categorical response sets are left blank.
c. These are the values used to calculate means. For the majority of items, these values match the codes in the data file and codebook.
d. Effect size for independent $t$ - tests uses Cohen's $d$; $z$-tests use Cohen's $h$.
e. Statistics are weighted by institution-reported sex and enrollment status (and institution size for comparison groups). Categorical items are not listed.
f. The $95 \%$ confidence interval for the population mean is equal to the sample mean plus or minus 1.96 times the standard error of the mean.
g. A measure of the amount individual scores deviate from the mean of all the scores in the distribution.
h. Degrees of freedom used to compute the t-tests. Values differ from Ns due to weighting and whether equal variances were assumed.
i. Statistical comparisons are two-tailed independent $t$-tests or $z$-tests. Statistical significance represents the probability that the difference between your students' mean and that of the students in the comparison group is due to chance.
j. Statistical comparison uses $z$ - test to compare the proportion who responded (depending on the item) "Done or in progress" or "Yes" with all who responded otherwise.
k. Mean represents the proportion who responded (depending on the item) "Done or in progress" or "Yes."

## Key to symbols:

A Your students' average was significantly higher ( $\mathrm{p}<.05$ ) with an effect size at least .3 in magnitude.
$\Delta$ Your students' average was significantly higher ( $\mathrm{p}<.05$ ) with an effect size less than .3 in magnitude.
$\nabla \quad$ Your students' average was significantly lower ( $\mathrm{p}<.05$ ) with an effect size less than .3 in magnitude.
V Your students' average was significantly lower ( $\mathrm{p}<.05$ ) with an effect size at least .3 in magnitude.
Note: It is important to interpret the direction of differences relative to item wording and your institutional context. You may not see all of these symbols in your report.

Southern Oregon University

 your results. For more information please visit our website (nsse.indiana.edu) or contact a member of the NSSE team.

1. Class level: As reported by your institution.
2. Item numbers: Numbering corresponds to the survey available on the NSSE website.
3. Item wording and variable names: Survey items are in the same order and wording as they appear on the instrument. Variable names are included for easy reference to your data file and codebook.
4. Values and response options: Values are used to calculate means. Response options are worded as they appear on the instrument.
5. Count and column percentage (\%): The Count column contains the number of students who selected the corresponding response option. The column percentage is the weighted percentage of students selecting the corresponding response option.

Note: Column percentages and statistics are weighted by institutionreported sex and enrollment status. Comparison group statistics are also weighted by institutional size. Counts are unweighted and cannot be used to replicate column percentages. For details visit: go.iu.edu/NSSE-weights
6. Statistical comparisons: Items with mean differences that are larger than would be expected by chance are noted with asterisks referring to three significance levels ( ${ }^{*} p<.05,{ }^{* *} p<.01,{ }^{* * *} p<.001$ ). Significance levels indicate the probability that an observed difference is due to chance. Statistical significance does not guarantee the result is substantive or important. Large sample sizes tend to generate more statistically significant results even though the magnitude of mean differences may be inconsequential. Consult effect sizes (see \#7) to judge the practical meaning of differences. Unless otherwise noted, statistical comparisons are two-tailed independent $t$-tests. Exceptions are items 11 a-f which are compared using a $z$-test.

## Endnotes

 percentages cannot be replicated from counts.

 compared using a $z$-test.
 Learning, LS = Learning Strategies, QI = Quality of Interactions, QR = Quantitative Reasoning, RI = Reflective \& Integrative Learning, SE = Supportive Environment, and SF = Student-Faculty Interaction.
 units using the midpoints of response option ranges and an estimate for unbounded options.
e. Effect size for independent $t$-tests uses Cohen's $d$; z-tests use Cohen's $h$. See page 2 for more details.
f. Statistical comparison uses $z$-test to compare the percentage who responded "Done or in progress" or "Yes."
g. Statistics are weighted by institution-reported sex and enrollment status (and institution size for comparison groups).
 mean plus or minus 1.96 times the standard error of the mean.
i. A measure of the amount individual scores deviate from the mean of all the scores in the distribution.
j. Degrees of freedom used to compute the $t$-tests. Values differ from Ns due to weighting and whether equal variances were assumed.

1. Mean represents the proportion who responded "Done or in progress" or "Yes."

national survey of student engagement

## NSSE 2022

## Respondent Profile

Southern Oregon University

## NSSE 2022 Respondent Profile

## About This Report

The Respondent Profile presents both student- and institution-reported demographic information, allowing you to examine similarities and differences between your students and those at your comparison group institutions. This report uses information from all randomly selected or census-administered students. The display below highlights important details in the report to keep in mind when interpreting your results. For more information please visit our website (nsse.indiana.edu) or contact your NSSE Project Services team.

1. Class level: As reported by your institution.
2. Item numbers: Numbering corresponds to the survey facsimile available on the NSSE website.
3. Item wording and variable names: Survey items are in the same order and wording as they appear on the instrument. Variable names are included for easy reference to your data file and codebook.
4. Response options: Response options are worded as they appear on the instrument (excep where abbreviations are used for formatting purposes).
5. Count and column percentage (\%): The Count column contains the number of students who selected the corresponding response option. The column percentage is the weighted percentage of students selecting the corresponding response option.

Note: Column percentages are weighted by institution-reported sex and enrollment status. Comparison group percentages are also weighted by institutional size. Counts are unweighted and cannot be used to replicate column percentages. For details visit: go.iu.edu/NSSE-weights

## About This Report

The NSSE Institutional Report displays core survey results for your students alongside those of three comparison groups and provides additional comparison group results for Topical Modules and consortium questions. In May, your institution was invited to customize these groups via a form on the Institution Interface.

NSSE comparison groups may be customized by (a) identifying specific institutions from the list of all prior and current year NSSE participants, (b) composing the group by selecting institutional characteristics, or (c) a combination of these. Institutions that chose not to customize received default groups that provide relevant comparisons for most institutions.

Prior-year NSSE participants are identified with an asterisk (*) in the institution lists below.

## NSSE Core Survey Comparison Group 1

Name: Pub4YrFT TranInclAdm
Number of institutions: 22
Comparison group selection: Your institution customized the comparison group by selecting individual institutions and/or types of institutions by category.
Group description: Public 4 year institutions, 2500-10000 UG enrl with high number of transfer in students and an inclusive admissions policy.
List of institutions:

- California University of Pennsylvania (California, PA)
- Colorado State University Pueblo (Pueblo, CO)
- East Stroudsburg University of Pennsylvania (East Stroudsburg, PA)
- Framingham State University (Framingham, MA)
- Frostburg State University (Frostburg, MD)
- Jackson State University (Jackson, MS)
- Kutztown University of Pennsylvania (Kutztown, PA)
- Millersville University of Pennsylvania (Millersville, PA)
- Minot State University (Minot, ND)
- Missouri Western State University (Saint Joseph, MO)
- Norfolk State University (Norfolk, VA)
- North Carolina Central University (Durham, NC)
- Salem State University (Salem, MA)
- Shepherd University (Shepherdstown, WV)
- Slippery Rock University of Pennsylvania (Slippery Rock, PA)
- Southwestern Oklahoma State University (Weatherford, OK)
- University of Hawai'i at Hilo (Hilo, HI)
- University of Nebraska at Kearney (Kearney, NE)
- University of North Alabama (Florence, AL)
- University of South Carolina Aiken (Aiken, SC)
- University of South Carolina Upstate (Spartanburg, SC)
- Winston-Salem State University (Winston-Salem, NC)

## NSSE Core Survey Comparison Group 2

Name: PubBal A\&S wSomeGrad

## Number of institutions: 51

Comparison group selection: Your institution customized the comparison group by selecting individual institutions and/or types of institutions by category.
Group description: Public 4 year, UG enrl between 2500 and 10000 with balanced Arts \& Scweinces and some graduate student programs.

## List of institutions:

- Alabama State University (Montgomery, AL)
- Alcorn State University (Alcorn State, MS)*
- Angelo State University (San Angelo, TX)*
- Austin Peay State University (Clarksville, TN)*
- California State University-Bakersfield (Bakersfield, CA)
- Central Connecticut State University (New Britain, CT)*
- Clarion University of Pennsylvania (Clarion, PA)
- College of Charleston (Charleston, SC)
- The College of New Jersey (Ewing, NJ)
- Colorado State University Pueblo (Pueblo, CO)
- East Central University (Ada, OK)*
- Eastern New Mexico University (Portales, NM)
- Eastern Oregon University (La Grande, OR)*
- Edinboro University of Pennsylvania (Edinboro, PA)
- Fitchburg State University (Fitchburg, MA)*
- Framingham State University (Framingham, MA)
- Francis Marion University (Florence, SC)
- Frostburg State University (Frostburg, MD)
- Humboldt State University (Arcata, CA)*
- Indiana University East (Richmond, IN)*
- Indiana University Northwest (Gary, IN)
- Indiana University of Pennsylvania (Indiana, PA)
- Indiana University Southeast (New Albany, IN)*
- Jackson State University (Jackson, MS)
- Keene State College (Keene, NH)
- Kutztown University of Pennsylvania (Kutztown, PA)
- Lander University (Greenwood, SC)
- Louisiana State University-Shreveport (Shreveport, LA)
- Millersville University of Pennsylvania (Millersville, PA)
- Morehead State University (Morehead, KY)*
- Norfolk State University (Norfolk, VA)
- Northern Michigan University (Marquette, MI)*
- Radford University (Radford, VA)
- Ramapo College of New Jersey (Mahwah, NJ)
- Shepherd University (Shepherdstown, WV)
- Stockton University (Galloway, NJ)
- Texas A\&M University - Corpus Christi (Corpus Christi, TX)*
- Truman State University (Kirksville, MO)
- University of Hawaiii at Hilo (Hilo, HI)
- University of Houston-Victoria (Victoria, TX)
- University of Illinois Springfield (Springfield, IL)
- University of Massachusetts Dartmouth (North Dartmouth, MA)*
- University of Michigan-Dearborn (Dearborn, MI)
- University of the District of Columbia (Washington, DC)
- University of Washington Bothell (Bothell, WA)*
- University of Wisconsin-River Falls (River Falls, WI)
- Virginia State University (Petersburg, VA)
- West Texas A\&M University (Canyon, TX)

NSSE 2022 SELECTED COMPARISON GROUPS• 2

- Western Colorado University (Gunnison, CO)
- Western Connecticut State University (Danbury, CT)*
- Winthrop University (Rock Hill, SC)*

## NSSE Core Survey Comparison Group 3

Name: Pub4YrPrim UG<10000
Number of institutions: 105
Comparison group selection: Your institution customized the comparison group by selecting individual institutions and/or types of institutions by category.
Group description: Public 4 year institutions with high or very high proportion of undergraduate and no doctorate programs.

## List of institutions:

- Alabama A\&M University (Normal, AL)
- Auburn University at Montgomery (Montgomery, AL)
- Augsburg University (Minneapolis, MN)
- Bemidji State University (Bemidji, MN)
- Bentley University (Waltham, MA)
- Bethune-Cookman University (Daytona Beach, FL)
- Black Hills State University (Spearfish, SD)
- Bloomsburg University of Pennsylvania (Bloomsburg, PA)
- Bryant University (Smithfield, RI)
- California State University-Bakersfield (Bakersfield, CA)
- California State University-Channel Islands (Camarillo, CA)
- California University of Pennsylvania (California, PA)
- Christopher Newport University (Newport News, VA)
- The Citadel, The Military College of South Carolina (Charleston, SC)
- Clarion University of Pennsylvania (Clarion, PA)
- College of Charleston (Charleston, SC)
- The College of New Jersey (Ewing, NJ)
- Colorado Mesa University (Grand Junction, CO)
- Colorado State University Pueblo (Pueblo, CO)
- Dakota State University (Madison, SD)
- Davenport University (Grand Rapids, MI)
- East Stroudsburg University of Pennsylvania (East Stroudsburg, PA)
- Eastern Connecticut State University (Willimantic, CT)
- Eastern New Mexico University (Portales, NM)
- Edinboro University of Pennsylvania (Edinboro, PA)
- Elmhurst University (Elmhurst, IL)
- Emerson College (Boston, MA)
- Fairleigh Dickinson University-College at Florham (Madison, NJ )
- Florida Southern College (Lakeland, FL)
- Framingham State University (Framingham, MA)
- Francis Marion University (Florence, SC)
- Fresno Pacific University (Fresno, CA)
- Frostburg State University (Frostburg, MD)
- Grambling State University (Grambling, LA)
- High Point University (High Point, NC)
- Indiana University Northwest (Gary, IN)
- Inter American University of Puerto Rico-Ponce Campus (Mercedita, PR)
- Iona College (New Rochelle, NY)
- Ithaca College (Ithaca, NY)
- Keene State College (Keene, NH)
- Kutztown University of Pennsylvania (Kutztown, PA)
- Lander University (Greenwood, SC)
- Lock Haven University (Lock Haven, PA)
- Manhattan College (Bronx, NY)
- McNeese State University (Lake Charles, LA)
- Metropolitan State University (Saint Paul, MN)
- Midwestern State University (Wichita Falls, TX)
- Millersville University of Pennsylvania (Millersville, PA)

NSSE 2022 SELECTED COMPARISON GROUPS • 4

- Milwaukee School of Engineering (Milwaukee, WI)
- Minnesota State University Moorhead (Moorhead, MN)

- University of Guam (Mangilao, GU)
- The University of Tennessee Martin (Martin, TN)

# A Pocket Guide to Choosing a College: NSSE 2022 Answers from Students Using the Report 

To focus public awareness on what constitutes quality in the college experience, NSSE developed A Pocket Guide to Choosing a College. This helpful brochure gives prospective students and their families key questions to ask during their campus visits or virtual tours, allowing them to actively consider student engagement during the college choice process.

Student responses to selected questions from the NSSE pocket guide are presented in a report entitled A Pocket Guide to Choosing a College: NSSE 2022 Answers from Students, part of your NSSE Institutional Report 2022.

## Who can use this report?

A Pocket Guide to Choosing a College: NSSE 2022 Answers from Students is a summary of student engagement on your campus. It may be of special interest to admissions professionals, particularly those distributing the NSSE pocket guide to visiting students. The results can also be used as a resource for orientation staff, advisors, faculty, and others who work regularly with first-year students.

## How can an institution customize and distribute results?

A Pocket Guide to Choosing a College: NSSE 2022 Answers from Students is designed for sharing NSSE results. The report is delivered in both PDF and Excel formats so that institutions can easily insert logos, campus photos, or additional information. Institutions are encouraged to post copies of the report and other results from their NSSE Institutional Report 2022 on their websites.

## How can I get a copy of this report for my institution?

Each participating institution designates a staff member to serve as the primary liaison for NSSE correspondence and reports. Known as the Campus Project Manager (CPM), the primary liaison may assist you in obtaining a copy. Contact NSSE for help identifying your CPM.

## How can I get copies of the NSSE pocket guide?

College and university admissions officers may request up to 300 free NSSE pocket guides per year. Additional quantities are available for a small fee. A Spanish version of the NSSE pocket guide, Una Guía de Bolsillo Para Escoger una Universidad: Preguntas a Hacer en Tus Visitas Universitarias, is also available.

The QR code at left can be used to access a mobile version of the NSSE pocket guide. It is available on the NSSE website for institutions to include in their recruitment, college fair, and campus tour materials.
go.iu.edu/NSSE-pocketguide
If you have questions about these resources, contact the NSSE Institute at nsse@indiana.edu or toll-free at 866-435-6773.

# A Pocket Guide to Choosing a College: NSSE 2022 Answers from Students Southern Oregon University 

Each year the National Survey of Student Engagement (NSSE) asks students at hundreds of colleges and universities to reflect on the time they devote to various learning activities. The topics explored are linked to previous research on student success in college.

Results from NSSE can provide prospective students with insights into how they might learn and develop at a given college. To help in the college exploration process, NSSE developed $A$ Pocket Guide to Choosing a College to give students and their families key questions to ask during campus visits or virtual tours.

The following responses were provided by 282 SOU students on the 2022 survey.

A Pocket Guide to Choosing a College is available at go.iu.edu/NSSEpocketguide

## Academics

How much time do students spend studying each week?
First-year (FY) students spent an average of 12 hours per week preparing for class while seniors spent an average of 17 hours per week.

Do courses challenge students to do their best? ${ }^{\text {a }}$
$31 \%$ of FY students reported that their courses highly challenged them to do their best work.

## How much writing is expected?

In an academic year, FY students estimated they were assigned an average of 50 pages of writing and seniors estimated an average of 92 pages.

## How much reading is expected?

FY students estimated they spent an average of 6 hours per week on assigned reading, and seniors read 9 hours per week.

How often do students make course presentations? ${ }^{\text {b }}$ $35 \%$ of FY students and $65 \%$ of seniors frequently gave course presentations.

Do class discussions and assignments include the perspectives of diverse groups of people? ${ }^{b}$
$69 \%$ of FY students frequently included diverse perspectives in course discussions or assignments.

## Are students expected to use numbers or statistics throughout their coursework? ${ }^{\text {b }}$

$46 \%$ of FY students frequently used numerical information to examine a real-world problem or issue; $57 \%$ of seniors frequently reached conclusions based on their own analysis of numerical information.

## Experiences with Faculty

How do students rate their interactions with faculty? ${ }^{\text {c }}$ $47 \%$ of FY students rated the quality of their interactions with faculty as high.

How often do students talk with faculty members or advisors about their career plans? ${ }^{\text {b }}$
$33 \%$ of FY and $47 \%$ of seniors frequently discussed career plans with faculty.

Do faculty members clearly explain course goals and requirements?
$73 \%$ of FY students said instructors clearly explained course goals and requirements "quite a bit" or "very much."

Do students receive prompt and detailed feedback? ${ }^{\text {d }}$
$51 \%$ of FY students and $66 \%$ of seniors said instructors substantially gave prompt and detailed feedback on tests or completed assignments.

How often do students talk with faculty members outside class about what they are learning? ${ }^{b}$
$16 \%$ of FY students frequently discussed course topics, ideas, or concepts with a faculty member outside of class.

How many students work on research projects with faculty?
$6 \%$ of FY students and $34 \%$ of seniors worked on a research project with a faculty member.

## Learning with Peers

How often do students work together on course projects and assignments? ${ }^{\text {b }}$
$38 \%$ of FY students and $56 \%$ of seniorsfrequently worked with their peers on course projects and assignments.

Do students help each other learn? ${ }^{\text {b }}$
$57 \%$ of seniors frequently explained course material to one or more students.

## How often do students work together to prepare for exams? ${ }^{\text {b }}$

$29 \%$ of FY students frequently prepared for exams by discussing or working through course material with other students.

How often do students interact with others who have different viewpoints or who come from different backgrounds? ${ }^{\text {b }}$
Among FY students, $53 \%$ frequently had discussions with people with different political views, $75 \%$ frequently had discussions with people from a different economic background, and $69 \%$ frequently had discussions with people from a different race or ethnicity.

## Campus Environment

Are students encouraged to use learning support services (tutors, writing center)? ${ }^{\text {d }}$
$64 \%$ of FY students said the institution substantially emphasized the use of learning support services.
How do students rate their interactions with academic advisors? ${ }^{\text {c }}$
$66 \%$ of FY students and $60 \%$ of seniors gave the quality of their interactions with academic advisors a high rating.

How well do students get along with each other? ${ }^{\text {c }}$
$50 \%$ of FY students gave the quality of their interactions with their peers a high rating.

How satisfied are students with their educational experience?
$70 \%$ of FY and $83 \%$ of seniors rated their entire educational experience at this institution as "excellent" or "good."

## Rich Educational Experiences

What types of honors courses, learning communities, and other distinctive programs are offered?
During their first year, 7\% of students participated in a learning community. By spring of their senior year, $72 \%$ of students had done (or were doing) a culminating senior experience.

How many students study in other countries?
By their senior year, $9 \%$ of students had studied abroad.

## How many students get practical, real-world experience

 through internships or field experiences?By spring of their senior year, $51 \%$ of students had participated in some form of internship, co-op, field experience, student teaching, or clinical placement.

How many courses include community-based service-learning projects? ${ }{ }^{\text {e }}$
$45 \%$ of FY students

## Notes

a. Highly is a 6 or 7 on a seven-point scale where 1 is "Not at all" and 7 is "Very much."
b. Frequently is "Often" or "Very often."
c. A "High" rating is a 6 or 7 on a seven-point scale where 1 is "Poor" and 7 is "Excellent."
d. Substantially is "Quite a bit" or "Very much."
e. At least some is defined by combining responses of "Some," "Most,"and "All."

## NSSE 2022 <br> Student Comments <br> Southern Oregon University

This report displays confidential comments your students provided in response to up to three open-ended questions. Eight such questions appear in Topical Modules (Academic Advising; Career and Workforce Preparation; Civic Engagement; Experiences with Online Learning; First-Year Experiences and Senior Transitions; HIP Quality) and the survey ended with one final question (NSSE provided four options, or your institution could customize this prompt). This file contains separate tabs for each source, as appropriate, with end-of-survey comments further divided into tabs for first-year and senior students. Each tab contains the wording of the corresponding question.

Module and consortium comments are sorted by class, enrollment status, and gender identity. End-of-survey comments are sorted by overall satisfaction, enrollment status, and gender identity. Information for variables other than satisfaction and gender identity was provided by your institution.

## How Satisfied Were Student Commenters with Their Educational Experience?

Figure 1 displays your students' responses to the item "How would you evaluate your entire educational experience at this institution?" (variable name evalexp ) by whether they left an end-of-survey comment. These results indicate whether students who provided a comment were more or less satisfied than those who left no comment. Student-level responses to this item are included in the End-of-Survey tabs under the heading "Response to evalexp. "

Figure 1. How would you evaluate your entire educational experience at this institution? (evalexp)

## Identified Data Also Provided

Because the comments are confidential, student identifiers are not given in this report but are provided in a separate SPSS data file named "NSSE22 Student Comments (SOU).sav".

## Important

These comments appear exactly as the students entered them and may not be suitable for distribution without prior review. Faculty members, administrators, or other students may be mentioned by name, and comments were not edited for grammar, offensive language, excessive length, or otherwise questionable content. For this reason, please use discretion when using, storing, and disseminating this report and the Student Comments data file.

## Academic Advising Topical Module <br> Southern Oregon University

36 first-year students and 75 seniors responded to the following question in the Academic Advising module:

Regarding academic advising, who has been the most helpful and in what way?

| Class | Enrollment | Gender | Response |
| :---: | :---: | :---: | :---: |
| First-year | Full-time | Man | Alison Rutledge, helped me come to a final decision major wise and helped me plan for classes I would need here to help me succeed at my transfer school. |
| First-year | Full-time | Man | Mary Patridge - good advise |
| First-year | Full-time | Man | my advisor and Honors Foundations instructor Warren Hedges has been very helpful in my navigating major and minor path, as well as Mary Patridge |
| First-year | Full-time | Man | Deborah Brown; Bridge Advisor, Accelerated Baccalaureate Program Coordinator, University Seminar \& Undergraduate Studies Professor |
| First-year | Full-time | Man | Advisor |
| First-year | Full-time | Man | Craig |
| First-year | Full-time | Man | Academic success advisor |
| First-year | Full-time | Man | Head of the biology department helped me plan what classes to take throughout my college career. |
| First-year | Full-time | Man | My Student Success Coordinator who helped me come up with plans for every terms classes |
| First-year | Full-time | Man | Karen Bolda |
| First-year | Full-time | Woman | family |
| First-year | Full-time | Woman | Alison Rutledge |
| First-year | Full-time | Woman | my family |
| First-year | Full-time | Woman | Advisor not assigned to me |
| First-year | Full-time | Woman | My academic advisors |
| First-year | Full-time | Woman | My USEM teacher, Laura Jessup |
| First-year | Full-time | Woman | My professors and friends. I talk to them about what I need help with and what I plan on doing |
| First-year | Full-time | Woman | My advisor |
| First-year | Full-time | Woman | My major academic advisor has provided me with a plan, my assigned academic advisor is nice and has shown me resources to use |
| First-year | Full-time | Woman | Laura Jessup. She actually checks in with you, and wants to make sure you're doing okay and if you have any questions. |
| First-year | Full-time | Woman | First year advisor. He set me towards whatever help I needed and was always there. |
| First-year | Full-time | Woman | I'm not sure if I'm meant to name names, but my general academic advisor Dave Kahn. He has been extremely helpful with questions about college at large and with pulling strings and organizing class load prior to each term. |
| First-year | Full-time | Woman | My roommate has been the most helpful because she is the same major as me and is a year older then me so she knows what I need. |
| First-year | Full-time | Another gender identity | Karen Bolda has thoroughly explained what each degree path looks like as well as what I need to do in order to achieve my goals. |
| First-year | Full-time | Another gender identity | J |
| First-year | Full-time | Another gender identity | upperclassmen in my field of study |
| First-year | Full-time | Another gender identity | Dr. Deb Brown has been my hero. Her patience, empathy, passion, and strong sense of humor have been an absolute blessing. Talking with and listening to Dr. Deb are honestly my favorite things about attending this institution. |
| First-year | Full-time | Another gender identity | My assigned academic advisor and my director for honors college |
| First-year | Full-time | Another gender identity | Myself |

## Academic Advising Topical Module <br> Southern Oregon University

36 first-year students and 75 seniors responded to the following question in the Academic Advising module:

## Regarding academic advising, who has been the most helpful and in what way?

| Class | Enrollment | Gender | Response |
| :--- | :--- | :--- | :--- |
| Senior | Full-time | Woman | Léa Griess, Dr. Condon and Dr.Holmes, Mrs. Griess was my first contact at SOU. We started to talk on March 2020 and |
|  |  | I decided to keep her as my advisor. She helped me to put together a program before I started on fall 2020that help me to <br> conclude my degree in 7 terms. She was always answering my emails promptly and answered all my questions. Moreover <br> it was with letter of recommendations from this three people that I was accepted to the masters in clinical mental health |  |
|  |  | counseling at SOU. Dr. Holmes and Dr. Condon have been the most helpful instructors in anything I needed. I just which <br> that all faculty was like this three people that helped a non conventional student like me to accomplish my goals. |  |

| Senior | Full-time | Woman | All advisors related to my majors. |
| :--- | :--- | :--- | :--- |
| Senior | Full-time | Woman | Robin Williams. She has been available for any questions and given thorough and accurate information every step of the <br> way. |
| Senior | Full-time | Woman | My advisor for helping me through the required coursework and the student health and wellness center for helping me <br> with my mental well-being and overall ability to succeed in balancing school and life |
| Senior | Full-time | Woman | Chris Mahan in keeping me on the right track for deadlines and classes. |
| Senior | Full-time | Woman | Lea Griess has helped me have a better understanding on the type of classes that I needed to complete to graduate. |
| Senior | Full-time | Woman | Faculty and teaching staff not assigned to advise me, but offered advice and help as a professional in the field |
| Senior | Full-time | Woman | Dee Fretwell, Mark Siders, and Jeremy Carlton. These three have been active in advising me in various areas of my <br> education and future decisions. Especially Dee Fretwell, she has gone above and beyond to ensure I finish my time at <br> SOU and continues to provide amazing life advice. I really owe a good chunk of my time at SOU and success to her. |

| Senior | Full-time | Woman | Dennis Slattery and Dee Fretwell |
| :--- | :--- | :--- | :--- |
| Senior | Full-time | Woman | My degree faculty |
| Senior | Full-time | Woman | My academic advisors for psychology have been the most helpful in trying to help me with my future goals in my career. |
| Senior | Full-time | Woman | Everyone |
| Senior | Full-time | Woman | Slawta and Patridge |
| Senior | Full-time | Woman | My extended family, they are available |
| Senior | Full-time | Woman | Dr. Paddock was the most helpful. She asked what my goals were and helped me to create a plan that met them. She was <br> always straightforward with me and also very kind. |
| Senior | Full-time | Woman | My advisor |
| Senior | Full-time | Woman | Tanya Blakely, Dr. Greene |
| Senior | Full-time | Woman | La Bonty, the cell bio teacher. She gives me a list of classes that will be offered, so I can plan a schedule out to graduate. |
| Senior | Full-time | Woman | My mentor from my internship, talking through not only interest but lifestyles that go along with career options. |
| Senior | Full-time | Woman | Dr.Greene is the only SOU staff who has ever talked to me about my future/present. I have reached out for help from <br> student services, other professors, administration, and more, but never received any help from anyone besides Dr. <br> Greene. |
| Fenior | Full-time | Woman | Dr. Casto, because she always answers my questions quickly and provided help with recommendations |
| Senior | Full-time | Woman | Erik Sol and Amy Patridge |
| Senior | Full-time | Woman | My chosen academic advisor, who is one of my professors. The general art advisor was terrible. |
| Senior | Full-time | Woman | My advisor, Dr. Mark Shibley |
| Senior | Full-time | Woman | My degree advisor has been the most helpful. He genuinely takes interest in my plans and takes the time to speak with <br> me about them. |
| Senior | Full-time | Woman | Parents, advisor at SOU, independent therapist |

## Academic Advising Topical Module <br> Southern Oregon University

36 first-year students and 75 seniors responded to the following question in the Academic Advising module:

Regarding academic advising, who has been the most helpful and in what way?

| Class | Enrollment | Gender | Response |
| :--- | :--- | :--- | :--- |
| Senior | Full-time | Woman | Edward Derr was my assigned academic advisor, but I do wish I had been assigned with someone who helped me more <br> with my future goals in applying to the MAT program and could advise me in that respect. |
| Senior | Full-time | Woman | My BFA mentor |
| Senior | Full-time | Woman | Erica Knotts, she is just kind and cares about you and your future. |
| Senior | Full-time | Woman | I have an advisor that has frequently been my professor who has guided me a lot in one of my majors. We don't meet <br> often, but they always have good advice and are willing to help |
| Senior | Full-time | Woman | Chris Mahan in Trio |
| Senior | Full-time | Woman | Lisa Wileman |
| Senior | Full-time | Woman | My Major advisor was the most helpful. Also, my spanish professors were helpful as well. I also seeked help from my <br> friends. But really they were the ones who provided the most help in navigating college. The advisors set to help me, <br> didnt at all. |
| Senior | Full-time | Woman | Tiffany Morey was most helpful with my degree and applying it to my future career. |
| Senior | Full-time | Another <br> gender <br> identity | Dr. Cherstin Lyon is a rockstar. She is the honors advisor and has been incredibly helpful in keeping me on-task, <br> organized, and prepared with all my projects and required courses. |
|  |  |  |  |

Max Brooks a friendly and helpful guy! Great to chat with about more ambiguous "future" questions, as well as more specific tasks like making resumes and cover letters, as well as applying to jobs!

Robert Arellano is the EMDA superstar. He has a positive attitude, approaches us all with genuine interest, and is very flexible to schedule with.

| Senior | Full-time | Another <br> gender <br> identity | Vincent Smith, prompt in responding and resolving issues. |
| :--- | :--- | :--- | :--- |
| Senior | Full-time | Another <br> gender <br> identity | Alison Rutledge my advisor has been the most helpful because she helps make sure I'm getting all my classes not only to <br> graduate but also have my med scho pre-reqs. She also helps me figure out if some of my classes from other institutions <br> can be substuted for requirements at this school. |
| Senior | Full-time | Another <br> gender <br> identity | Chad Thatcher when it comes to planning in OAL. Chris Mahan through TRIO for my psychology, since I have been <br> unable to meet with my psychology advisor. |
| Senior | Full-time | Prefer not The Business department. The art department is horrible for advising and help. <br> to respond |  |
| Senior | Full-time | Prefer not Karen Bolda. Karen has been most consistently available, and willing to answer any questions I have. <br> to respond |  |
| Senior | Full-time | Prefer not <br> to respond most influential to my success as a student and my preparation for a career |  |
| Senior | Full-time | Prefer not <br> to respond | The professors in my art classes have been the most active in their student's well being and career/school planning. |
| Senior | Not full-time | Man | Moneeka Settles is an exceptional advisor, educator, and human. I wouldn't have finished my degree without her support <br> and guidance. |
| Senior | Not full-time | Woman My academic councilors |  |

## Senior Transitions Topical Module <br> Southern Oregon University

33 seniors responded to the following question in the Senior Transitions module:
Is there anything your institution could have done better to prepare you for your career or further education? Please describe.

| Class | Enrollment | Gender | Response |
| :--- | :--- | :--- | :--- |
| Senior | Full-time | Man | I realize that it is my responsibility to partake of the things available on campus. I did find difficulty in obtaining tutors <br> for courses and therefore my parents hired private tutors. I have been happy at SOU. |
| Senior | Full-time | Man | They could have told me about career opertunities. I almost never heard about things in my field, and if I did, they <br> weren't really paying jobs as much as unpaid almost internships. |
| Senior | Full-time | Man | Told me to go to another school |
| Senior | Full-time | Man | I think that the Healthcare Administration Major would benefit from further access to certificate programs offered by the <br> University. I think it would be helpful if the degree plan included either/or classes that allow students to complete a <br> certificate by the end of the degree. I think that including certification as a requirement with concentrations gives the <br> student a more competitive edge in the workplace. |

| Senior | Full-time | Woman | Have taken courses that were not necessary for my degree. |
| :--- | :--- | :--- | :--- |
| Senior | Full-time | Woman | They could have helped me not get dismissed from OHSU's satellite campus more and not messed up dual enrollment fin | aid sk bad. Additionally, I wish it felt like more people cared about me, but they only care about traditional students. And then there's lots of referrals for help to services that just have more red tape. My whole experience was so difficult that I can't wait to be done with it all. Had they also had online creative writing courses I would have stayed another year and gotten a minor, but that was messed up as well. 2020 was the worst year of my life there.

Senior Full-time Woman I am a non-conventional student ( 46 year old mother, wife , and emigrant from Brazil, English is my second language). I understand much of the institutions clubs and opportunities are geared towards younger students or people without commitments. I would like to say it is necessary to have an older or no conventional club at the institution as people with kids and family may be not available during the hours other groups met. Maybe my life is to be busy and I would not be able to attend anyways. I believe also that communication is a very important tool between faculty and students. I had some difficulty with a couple instructors to keep communication open. Some never ever answered the emails. That needs to change. One Professor in particular last year was not clear about the way her class and assignments were graded and never answered my questions about it. If I had not acquired extra points in her class, due to outside class work

I would have get an B and not an A- which still hurt my GPA. I am still upset with the lack of communication and perceived lack of interest from the particular instructor. I think if a instructor acts likes that with a 46 year old how the particular instructor acts with 18-22 year old people? In sum communication needs to be better even if a student has taken online classes. For some faculty we need to stick to syllabus and not the feeling or maybe unconscious bias about a student.

| Senior | Full-time | Woman | Perhaps provide a financial advisor to help find better ways to look for scholarships for my current education or further <br> education. There are some professors that have also been helpful, but I know they are busy and have their own work to <br> do. |
| :--- | :--- | :--- | :--- |
| Senior | Full-time | Woman | I think that having an advisor(s) that help students continue on to graduate programs by helping them understand what is <br> needed to continue towards that kind of path. |
| Senior | Full-time | Woman | More outreach on how to apply for graduate school |
| Senior | Full-time | Woman | N/A |
| Senior | Full-time | Woman | The resources offered are not well advertised to students and are not easily accessible for students. These resources often <br> have extremely lengthy wait times for accessing them and need the proper management in place to reduce the <br> bureaucratic barriers in place. |
| Senior | Full-time | Woman | With the exception of Dr. Paddock and Dr. Robert, my experience with academic advisors was very poor. I didn't feel <br> like I could get ahold of them effectively and they did not outline major expectations clearly. |
| Senior | Full-time | Woman | Yes, they don't know anything about the career I want to work in, so they are no help in that. They could of had advisors <br> that weren't teachers so the advisor's would know information on what classes to take when to graduate on schedule. |

## Senior Transitions Topical Module <br> Southern Oregon University

33 seniors responded to the following question in the Senior Transitions module:
Is there anything your institution could have done better to prepare you for your career or further education?
Please describe.

| Class | Enrollment | Gender | Response |
| :---: | :---: | :---: | :---: |
| Senior | Full-time | Woman | YES!!! I would have liked to have real advice from the beginning. I had not spoken to anyone for the first year of my time at sou. I was able to finally find an advisor that I had requested to switch to my junior year, however, it was difficult to switch my major by then. I wanted to be a high school health teacher but due to bad advising, I ended up in an elementary education degree path. I had no help from any student services, I reached out many times. Even in person, I was treated terribly by the financial aid staff member, to the extent that a fellow student spoke out about how to mean the school staff was. I know that COVID was difficult, but I received no help prior to covid. I also sat on student government and had very negative interactions with the admin, dissing student concerns and voices to the extent of students wanting to maybe hold a strike. I also started a school club, which was very difficult due to a lack of help from faculty, and the club board director was very unhelpful and dismissive of me and fellow club members. This school has passionate students who want to make a change in the world, however, the bureaucracy and lack of connection from the administration is stifling students' desire to be a part of the school community. |

| Senior | Full-time | Woman | Provided better mental health care, not just emergent or in crisis care. Also taken more of a step to help plan my college path. |
| :---: | :---: | :---: | :---: |
| Senior | Full-time | Woman | I think this is tricky to answer because each student is so different in their needs. I transferred here after experience at two four-year universities, and studying abroad, so I had a lot of experience and came with momentum for what I wanted to do going forward at SOU. My advisor and professors in the SOAN department have been the most amazing resources for me thus far. |
| Senior | Full-time | Woman | No |
| Senior | Full-time | Woman | Yes, I was not told or asked if I was going to apply to the MAT once I graduated, or before is when the application was due, but no one told me! It was very hard to imagine getting it together before the due date with my schooling in progress, so I have to apply late. I have asked for some clarifying answers from faculty and financial aid and have received less than helpful responses. I feel alone in the Masters application process. |
| Senior | Full-time | Woman | More connection with the local community/work force to encourage more job opporunities. Covid has gotten in the way of some of those connections, but there is still not a lot of planning to prepare students for after graduation. Maybe it is more of an issue of a lack of local opportunities |
| Senior | Full-time | Woman | This is such a general question. I think that I would say I wish my advisor would have cared more about my education. My Spanish major advisor was amazing at helping me with courses and planning my four years when I met her. However, my general advisor at some point advised me to take the wrong classes, that almost ment I couldnt graduate. I stopped relying on him and instead relied on my major advisor and my spanish professors and friends to help me. I wish the university encouraged far more communication from advisors to students. I understand both entities get busy, but sometimes students are left alone in the college world. Yes we are adults, but even as adults we need help. |

Senior Full-time Another Just want to say KAREN BOLDA is a bogus advisor. She does not have any good info, and as freshman she was gender completely and entirely unhelpful. She gets $0 / 5$ stars from me.
identity

I also would love for the EMDA Capstone to be required for 12 credits instead of just 4, I don't get why its only one quarter when other majors take it for three quarters.

| Senior | Full-time | Another <br> gender <br> identity | Taught us how to actually finds jobs, or assigned coursework that could be applied to future jobs so we had valuable <br> skills (more than just GIS and data analysis) |
| :--- | :--- | :--- | :--- |
| Senior | Full-time | Another <br> gender <br> identity |  |

## Senior Transitions Topical Module <br> Southern Oregon University

33 seniors responded to the following question in the Senior Transitions module:
Is there anything your institution could have done better to prepare you for your career or further education? Please describe.

| Class | Enrollment | Gender | Response |
| :---: | :---: | :---: | :---: |
| Senior | Full-time | Prefer not to respond | The Faculty Academic Advisors do not have time for every student they are too busy. The culture in the Art department is super toxic and discriminatory especially from the faculty and they set that standard for the students. It is incredibly unprofessional. The Business department is professional and worth the effort. Every paid employee in a leadership, teaching or management position should be trained for ethics and accountability the Housing Director is horribly discriminatory and rude and judgmental The Housing and Billing departments will misuse their authority to discriminate on those they do not like. This university needs some serious housekeeping and accountability training... students don't trust that they will be treated fairly and most of them leave,,, there is a horrible retention rate. The EDI department only cares about protected identities.. .it does not protect the civil rights of all students equally. It is extremely toxic and unjust honestly. |

Senior Full-time Prefer not I wish m major advisor/advisors in general had discussed in detail what career paths would be available to me with my to respond major. Learning the specifics of my career field just in time for graduation has been stressful.

Senior Full-time Prefer not Administration could of put more investments in grant writing and gallery skills. As a student employee, I felt to respond unappreciated. Some faculty put a lot of tasks on me without offering any training, assistance, or much compensation. I felt like blame was put on students instead of the institution for the quality not being up to a certain standard. Certain faculty members that held a lot of knowledge were unresponsive to me as a student employee that was running public events for the art department. Administration needs to be more involved in the events they want to happen.

| Senior | Not full-time | Man | This survey is way to long. |
| :--- | :--- | :--- | :--- |
| Senior | Not full-time | Woman | SOU has done so much to help students continue to meet our enrollment goals during Covid times. Teachers have <br> adapted their syllabus, created ways for group work to continue, provided IT help becuase we were romte learning for so <br> long, and inquired after our mental health, taking time for us to share and to feel reinforced in our mental health. I deeply <br> appreciate it. |
| Senior | Not full-time | Woman | no |
| Senior | Not full-time | Woman | Perhaps I would have liked to not take some science courses that were about the body. |
| Senior | Not full-time | Woman | Less group work. There is often 2+group projects in each class meaning I have to contend with 6-8 different groups of <br> people at once and it becomes more about managing personalities and motivators than actually learning the course <br> material, developing problem solving skills and contributing to the feild. Also recording class sessions for long distance <br> commuters and independent learners. |
| Senior | Not full-time | Woman | I would love to have access to a Master's program online regarding child development or mental health. |

End-of-Survey: First-Year Students
national survey of
Southern Oregon University
Institutions had the option to select one of four comment prompts to be given at the end of the survey (including after all module and consortium questions), or provide their own prompt. 28 first-year students reponded to the following:

Please describe the most significant learning experience you have had so far at this institution.

| Response to evalexp | Enrollment | Gender | Response |
| :---: | :---: | :---: | :---: |
| Good | Full-time | Another gender identity | The most significant learning experience I've had is from my Native American Studies classes where I was able to dive deeper into subjects that I didn't know almost anything about which opened my perspective on the world. |
| Good | Full-time | Prefer not to respond | One of the most significant learning experience I have had from this institution is from my intro to GSWS class. That was one of the classes that I have been dying to take as I have been questioning about everything about myself and thought it would an educational experience. |
| Good | Full-time | Prefer not to respond | I have taken a number of Native American Studies courses, all of which have given me amazing learning experiences. My experiences with the NAS faculty have been life changing. |
| Good | Not full-time | Man | The USEM classes have taught me more about writing in 3 semesters then my high school was able to do in 4 years. Great class and MR. Kahn is a fantastic and fun teacher to be around. |
| Fair | Full-time | Man | I really can't think of a specific instance, I feel like I've had equally significant experiences in almost all of my classes this past school year. |
| Fair | Full-time | Man | Learning how far the drain the institution is financially |
| Fair | Full-time | Man | The beginning of the year was great, unfortunately some personal things happened in my life that cause some changes and every since everything for me has been going down hill. |
| Fair | Full-time | Man | The most significant thing I've learned about myself here is that I'm completely content; and that scares me. I haven't talked to anyone my age since I started coming here, I work 35 hours a week at an aluminum mill in Medford, and I do my assignments when I get home from that. Just Rinse-repeat since first month of my freshman year, but what's odd, I'm not sad about it, I don't think "I haven't even talked to anyone close to my age since Highschool ended." I just, sorta go through the motions, and have got some time. That's the most valuable thing I've learned about myself, in a way, I can numb myself to emotion and feeling, I wouldn't have learned that had I not come here. |
| Fair | Full-time | Man | The most significant learning experience for me has been my introduction to Pacific islander studies class. Learning about marginalized community from someone with that lived experience feels much more genuine than someone who is teaching from facts and statistics. |
| Fair | Full-time | Woman | No |
| Fair | Full-time | Another gender identity | No |
| Poor | Full-time | Woman | The most significant learning experience I had was in Creative Writing. I learned a lot about writing and I can tell it improved my writing all around. But I also learned about future careers and paths I could take. It was like there was a whole new world opened to me that I had been ignoring. I also learned a lot about myself and what I want to do with my life. <br> I think that a holistic approach is what more professors need to focus on. |
| Poor | Not full-time | Another gender identity | I have learned the effectiveness of bandwagoning and crowd appeal on our nation's youth. Politics are being enforced in classes more than ever, this institution is more a hub of propaganda than a university. |

Institutions had the option to select one of four comment prompts to be given at the end of the survey (including after all module and consortium questions), or provide their own prompt. 45 senior students reponded to the following:

Please describe the most significant learning experience you have had so far at this institution.

| Response to evalexp | Enrollment | Gender | Response |
| :--- | :--- | :--- | :--- |
| Excellent | Full-time | Man | I have really enjoyed all the business classes in particular Prof Siders classes. Also, learning to stick with it an take <br> accounting more than once to pass ! |
| Excellent | Full-time | Man | This would probably be a student job I had through the Student Publicity Center. It helped my develop skills in my area <br> of intereste, photography and videography, and on top of that, I was able to work on a project with a group of <br> international students. This experience shaped some of my interests in other cultures (and inspired me to study abroad <br> this summer), and gave me an inspiration for the kind of work that I would want to do in the future. On top of this, I was <br> able to work with an incredible team with great organization and leadership. I would like to see more students take <br> advantage of these kinds of opportunities! |
| Excellent | Full-time | Man | The help that I get from all of the faculty has been very helpful for me. Also, the veteran's resources have been lifesaving <br> for me in this chapter of my life. |
| Excellent | Full-time | Woman | The math faculty had the biggest impact on my experience. They were amazing. I appreciate all of the time they spent not <br> only helping me with my coursework, but also helping me plan for my future and achieve my goals. |
| Excellent | Full-time | Woman | In the second term of my junior year here at SOU, the final assignment for my narrative and audio design class was a <br> group assignment that was 7 minutes long. Over those final weeks of the course, I was able to take on the role of project <br> lead and manager. I wrote the script, distributed tasks, made final calls on cuts and audio bits, and even was able to do a <br> voice acting role. That project helped to shape the way that I went about all major group assignments going forward and <br> has helped me to earn my current paid internship as in project management at a video game development company. I <br> appreciate SOU for giving me the opportunity to find my calling in the many in-depth, experimental final projects we've <br> been assigned throughout the years, where I was able to grow and better understand what I want out of my career after <br> graduation. |

| Excellent | Full-time | Woman | The most significant learning experience occurred this year when I opted for all online classes. This challenged me to <br> become much more computer and technology literate and provided valuable opportunities for career preparation. |
| :--- | :--- | :--- | :--- |
| Excellent | Full-time | Woman | Kayaking the Smith River as I entered the environmental science program. |
| Excellent | Full-time | Woman | Honestly any significant learning experience has all been through courses with Mark Siders and Dee Fretwell. Literally <br> every class I have had with them has had such a huge impact and created major learning experiences for me. With Dee <br> the biggest outcome of it all is being able to participate in the 100,000 strong in Americas program with students from <br> Guanajuato, Mexico. Taking everything I have learned from my time with the business department and courses with Dee <br> to finally put them together and apply them for this program/course. |

| Excellent | Full-time | Woman | My student teaching year |
| :--- | :--- | :--- | :--- |
| Excellent | Full-time | Woman | There have been many, including a literature research project freshman year in the HON101 sequence, analytical <br> chemistry and instrumental analysis courses, and the chemistry capstone. |
| Excellent | Full-time | Woman | The most significant growth that I have seen in myself (technical, interpersonal, and intrapersonal) occurred during the <br> international expedition in 2021. This was life changing and truly provided the most opportunity for growth. |

| Excellent | Full-time | Woman | I liked what I learned in the classes, it helped me in my work, I gained so many experiences. |
| :--- | :--- | :--- | :--- |
| Excellent | Full-time | Woman | I would say being able to take care of myself when two of my faculty members failed at their jobs on multiple occasions <br> was a very big learning experience. It's pessimistic, but I think it prepares me for people not doing their jobs in the real <br> world. |
| Excellent | Full-time | Woman | The SOAN class on Poverty, Policy, and Family. Read some amazing articles and did a lot of great coursework that <br> altered my views and solidified my goal of becoming a social worker. |
| Excellent | Full-time | Woman | School |
| Excellent | Full-time | Woman | Creating my art exhibition and showing on campus at the student galleries |
| Excellent | Not full-time | Woman | For my PS class, our class was divided in half and had to represent opposing sides of a fictitous country. I was on the side <br> of the underdogs and it was really challenging to get fellow team members to care to fight together as a group. BUT we <br> rallied and the team became animated and fought hard for our side. I was proud of how our team came together and was <br> able to understand that we had to fight in a united way, for us to get to achieve our collective goals before we could then <br> come to agreement on how each of our own targets could be achieved. |
| Excellent | Not full-time | Woman | The most significant learning experience I had is that rules exist for a reason and if not followed they can lead to trouble. |
| Food | Full-time | Man | The most significant learning experience I have had is when my teachers bring in outside professionals to guest speak. <br> They always seem to teach me a lot in five minutes. |

## End-of-Survey: Seniors <br> Southern Oregon University

Institutions had the option to select one of four comment prompts to be given at the end of the survey (including after all module and consortium questions), or provide their own prompt. 45 senior students reponded to the following:

Please describe the most significant learning experience you have had so far at this institution.

| Response to evalexp | Enrollment | Gender | Response |
| :---: | :---: | :---: | :---: |
| Good | Full-time | Man | The most significant learning experience I had was the opportunity to take a job for the CS Department. In this role I have learned skills that are not taught in any class, specifically system administration. The CS Lab has allowed me to experiment and learn with tools I would otherwise not have access to at home. I am currently working on ways to make this space accessible for others to use and learn as well. I absolutely love this job and wish other students to have this opportunity after I am gone so that they can learn and pass on their knowledge to other students. |
| Good | Full-time | Man | Working with my internship in conjunction with my Capstone. Also, actually going into the field to see work first-hand. |
| Good | Full-time | Man | Dr. David Parker's GIS in Business provided the tools and the environment to explore a vast data base of information. The course provided a framework for how to present the information but the experiential learning component made the course applicable to almost any major. I was impressed by the flexibility of the program and how a tool like ArcGIS can change the world. |
| Good | Full-time | Woman | Two classes I took as electives were the most significant. A Spanish class I took for my minor in Spanish given by Dr.Connor ( SPAN 441-Cultura afro-Hispana/afro latina ) a Woman and gender class given by Dr.Haah (PSY 497 Psychology of Women and gender). Opened my mind for the real causes of racism and misogynist feelings in our society . I am planning to be a counselor and researcher and those classes are the ones I never could afford to miss. I deep believe this classes should be part of core classes for anyone interested to work with the public. |
| Good | Full-time | Woman | Expanding my current skills with Emerging Media Digital Arts |
| Good | Full-time | Woman | The most significant experience I've had is a social psychology course that utilized course concepts to develop a fundraiser for a local nonprofit. Learning about the concepts academically and then working together to generate real money for an important organization really cemented the real-world effect of the concepts. |
| Good | Full-time | Woman | The practicums in the Health and PE department that was lead by Joel Perkins had the most significant experience on me. It gave me a look at what it is like in the real world by observing physical therapists |
| Good | Full-time | Woman | My capstone class. I didn't really feel like I had learned much until that class made me put it all together. |
| Good | Full-time | Woman | $\mathrm{m} / \mathrm{a}$ |
| Good | Full-time | Woman | I have learned so much from the Native American Studies classes I took with Brook Colley. I think everyone should have to take at least one NAS class at some point. I think everyone should have to take a multicultural class of some kind, and I find Alma Alvarez incredibly insightful, inspiring and thoughtful when learning from her. Merrilyne Lyndahl shares wonderful pedagogical skills in teaching, and Dr. Perrow's narrative class was wonderful. I think creative writing should not be so separate for English majors, and should be offered by more teachers than just Craig Wright. |

Institutions had the option to select one of four comment prompts to be given at the end of the survey (including after all module and consortium questions), or provide their own prompt. 45 senior students reponded to the following:

Please describe the most significant learning experience you have had so far at this institution.

| Response to evalexp | Enrollment | Gender | Response |
| :--- | :--- | :--- | :--- |
| Good | Full-time | Woman | I can describe several. Taking Environmental Science in the Fall of 2018, taking Phonetics Fall of 2019, taking SPAN |
|  |  |  | 425 Winter of 2021, and taking intermediate painting winter of 2022. |

The Environmental Science class is the most difficult class I have ever taken. Not only because of the content of the course but because of the harsh change I saw from high school to college. In that class I realized that I was completely alone and that it was up to me to continue fighting my way through college. I almost failed, but I kept going because I knew that I wanted to finish my degree.

Taking Phonetics with Dr. Holmes was absolutely life changing. Not only is she a formidable professor, but in that class I realized that choosing Spanish as my major was the best decision I took and furthermore, I realized that I wanted to have a career in phonetics and phonology. I realized in that class what my career was going to be, and it changed the course of what I thought I'd do after college.

The spanish class with Dr. Chacon introduced me to the movie that I wrote my capstone about. That class with him explored different topics about what it is to be a child in Latin America and how it is reflected in literature and cinematography. It is a course that made me fall in love completely with analyzing and going deeper into the content that I consume.

|  | My time in this institution has been indescribable. I have learned so much from my professors, who really are the ones <br> that shaped the experience from me. Without them, I would not choose this institution again, as it falls short without its <br> professors. I have also learned a lot from my classmates, who have enriched me with their different ideas and concepts. I <br> am leaving this institution at the end of spring saddened that my time was cut short with them due to the pandemic, but I <br> am looking forward to what is to come. |  |
| :--- | :--- | :--- |
| Good | Full-time | Another <br> gender <br> identity |
| Food | The most significant learning experience I had was through my internship, where I was a TA. It helped me develop really <br> useful skills and teach students the way I think they actually learn. |  |

| Good | Full-time | Prefer not <br> to respond | Being a part of Student Government during a global pandemic and a time of major transition within the institution taught <br> me how to operate in a corporate environment, apply the skills I had been learning in class, and refine my public speaking <br> and written communication skills to better fit with real world applications. I also learned how to forge and maintain <br> professional relationships, and how to lead a team. |
| :--- | :--- | :--- | :--- |
| Good | Not full-time | Man | Every class provided me with something that I could apply if used creatively... except Spanish. Please get rid of the <br> foreign language requirement. It serves no purpose for people who have no desire to learn a foreign language. I've been in <br> the military for 20 years and have traveled and lived all over the world and I still only speak one language (English). |
| Good | Not full-time | Woman | I feel everything I have done has been significant, I would not change any of the things I have learned so far. |
| Good | Not full-time | Woman | Practicum experinces |

national survey of student engagement

# NSSE 2022 Student Comments <br> End-of-Survey: Seniors <br> Southern Oregon University 

Institutions had the option to select one of four comment prompts to be given at the end of the survey (including after all module and consortium questions), or provide their own prompt. 45 senior students reponded to the following:

Please describe the most significant learning experience you have had so far at this institution.

| Response to evalexp | Enrollment | Gender | Response |
| :--- | :--- | :--- | :--- |
| Good | Not full-time | Woman | I learned that my emotional and learning disabilities make it very difficult to be successful academically. |
| Good | Not full-time | Woman | I spent months working on a short story with one of my professors. His investment in my work helped me grow as a <br> writer. |
| Fair | Full-time | Woman | Dr. Greene's courses have been the most influential and have helped with inner guidance and figuring out who I am as a <br> professional in the field of education. |
| Fair | Full-time | Woman | My sophomore year I couldn't get an appointment with the academic advisor I was assigned to. After a month without <br> response I reached out to the Dean of Students. I was able to get an appointment after that but the advisor was not kind <br> nor was he helpful. At that point I decided to take my registration and course selection into my own hands. Even though <br> I've had good advisors since, I don't feel I can fully trust them to help me navigate to graduation and therefore I still <br> monitor my progress closely. |

| Fair | Full-time | Woman | The thing I learned the most from this school is how to write lab reports for science based classes. |
| :---: | :---: | :---: | :---: |
| Fair | Full-time | Prefer not to respond | My peers created their own support community and many of my professors went above and beyond their pay grade to help students create big projects. My biggest frustration was with the way administration and some faculty treated student employees. The expectations of new student employees to take on large responsibilities without training and for little pay was unreasonable and created a lot of burnout. As a student employee working for the galleries, I had many supportive professors, but the faculty and administration that I needed to connect to resources and knowledge were often unresponsive. I often expressed needing help and being over worked and still had some faculty, whom would not offer me any time or help, be critical to me about not doing enough. Student employees needs more of a voice and administration needed to be more involved, but much of this was due to being understaffed and underpaid. |

| Fair | Not full-time | Woman | One class that I enjoyed was about mental disorders. I learned a lot about them. |
| :--- | :---: | :--- | :--- |
| Poor | Full-time | Woman | That SOU and OHSU care only about money, not students. Their instructors almost killed me and no one cared. |

[^6]:    Notes: Refer to your Frequencies and Statistical Comparisons report for full distributions and significance tests. Item numbering corresponds to the survey facsimile available on the NSSE website.
    a. Percentage point difference = Institution percentage- Comparison group percentage. Because results are rounded to whole numbers, differences of less than 1 point may or may not display a bar. Small, but nonzero differences may be represented as +0 or -0 .

[^7]:    Notes: Results weighted by institution-reported sex and enrollment status (and institution size for comparison groups); Effect size: Mean difference divided by the pooled standard deviation; ${ }^{*}$ p $<.05,{ }^{* *}$ p $<.01,{ }^{* * *}$ p $<.001$ (2-tailed).
    a. Precision-weighted means were used to determine the top $50 \%$ and top $10 \%$ institutions for each Engagement Indicator from all NSSE 2021 and 2022 institutions, separately by class. Using this method, Engagement Indicator scores of institutions with relatively large standard errors were adjusted toward the mean of all students, while those with smaller standard errors received smaller corrections. As a result, schools with less stable data-even those with high average scores-may not be among the top scorers. NSSE does not publish the names of the top $50 \%$ and top $10 \%$ institutions because of our commitment not to release institutional results and our policy against ranking institutions.
    b. Check marks are assigned to comparisons that are either positive or non-significant with an effect size > -. 10 .

[^9]:    a. Percentage point differences (institution - comp. group) rounded to whole numbers. Values less than one may not display a bar and may be shown as +0 or -0 .
    b. Cohen's $h$ (standardized difference between two proportions). Effect sizes indicate the practical importance of observed differences. For service-learning, internships, study abroad, and culminating senior experiences, an ES of about .2 may be considered small, .5 medium, and .8 large. For learning community and research with faculty, an ES of about . 1 may be considered small, . 3 medium, and .5 large (Rocconi \& Gonyea, 2018).
    ${ }^{*} p<.05,{ }^{* *} p<.01,{ }^{* * *} p<.001$ (z- test comparing participation rates).

[^10]:    Note: Participation includes the percentage of students who responded "Done or in progress" except for service-learning which is the percentage who responded that at least "Some" courses included a community-based project. All results weighted by institution-reported sex and enrollment status (and by institution size for comparison groups).

[^11]:    )

[^12]:    Note: Results weighted by institution-reported sex and enrollment status (and institutional size for comparison groups).

[^13]:    Notes: Percentage of students who responded "Done or in progress" except for service-learning which is the percentage who responded that at least "Some" courses included a communitybased project. Percentages are not reported (-) for row categories containing fewer than 10 students. Results are unweighted, except for overall percentages which are weighted by sex and enrollment status.
    a. Institution-reported variable. If provided, "Another" and "Unknown" categories for sex are not displayed due to low Ns, but do appear in the data file.

    Race/ethnicity labels are based on IPEDS reporting requirements.
    b. Neither parent (or guardian) holds a bachelor's degree.
    c. These are NSSE's default related-major categories, based on first major if more than one was reported. Customizable major categories are available in your NSSE Tableau dashboards and Report Builder (released in the fall). Excludes majors categorized as "all other."
