

Shared Interest Group (SIG) Name: Common Good (shown in winter catalog as Social-ism: Ideals and Ideas)

Description: Let's examine positive ideas on how to create a better society. These can be your own or others' ideas, or you can propose a reflection on desirable ideals.

This group is intended to focus on positive ideas. We will use current negative conditions only as a framework and a background for our positive reflections on what is desirable and may be possible.

Our gatherings will give you a chance to learn from each other, get feedback, and nurture political optimism.
