

2011 Oregon Winery Census Report

December 2012

In prior years a **combined** Oregon Vineyard and Winery Report was produced by the U.S. Department of Agriculture, National Agricultural Statistics Service, Oregon Field Office (USDA-NASS). For the 2011 vintage, the vineyard report was compiled by the USDA-NASS (available at <http://www.nass.usda.gov/or>) while the **winery data** were collected by the Southern Oregon University Research Center (SOURCE) and compiled into this separate report.

The number of “all” wineries, including TTB-bonded and OLCC Grower Sales Privilege and Winery license holders, increased from 419 to 463 in 2011. The number of wineries crushing grapes (TTB-bonded) increased from 315 in 2010 to 350 in 2011, an increase of 35 wineries. The total amount crushed from the 2011 vintage is estimated to be 42,033 tons, up 41 percent over the light 2010 vintage and 14 percent over the 2009 vintage. Case sales, including domestic and export sales, are estimated to have increased 6 percent from 2010 to 2011, passing the 2 million case production total for the first time, while the total dollars for all wine sales are estimated to have increased by 9 percent.

Funding for this survey was provided by the Oregon Wine Board.
