

**GRADUATE STUDIES
SUMMARY OF PROPOSED CATALOG CHANGES**

PROGRAM: CMHC FOR CATALOG YEAR: 2020-21

PROGRAM MODIFICATIONS (revised program description or admission requirements, change to total required credits, change in program course lists, revised faculty list)

NEW COURSES (New Course Proposal needed: Department, number, Title, CIP)

MODIFIED COURSES (titles, descriptions, credits)

Updating course title and description which is outdated. Psychopharmacology content was added to this previous 3 credit class and while the credits were updated at some point in the past, the course description and title were never changed to reflect the change in emphasis and content in the course.

COUN 525

Current title: Substance Abuse & Co-Occurring Disorders

New title: Psychopharmacology and Substance Use Disorders

Old course description:

Acquaints students with the concepts of chemical dependence and co-occurring disorders (dual diagnoses). Explores the developmental models of addiction and the theories and etiology of addictions, as well as strategies for prevention and intervention. Prerequisite(s): Enrollment in the CMHC program. * This course was formerly offered under a different number; students who took the following course(s) will not receive additional credit unless the course is stated to be repeatable in the description above: PSY 525. Graded (A-F) only.

New course description:

Acquaints students with the spectrum of substance use disorders and addictions. Explores theories and etiology of addiction, incorporates trauma-informed and social justice perspectives, and considers strategies for prevention and intervention. Provides a neurological overview of psychiatric medications and the responsibilities of mental health counselors within psychopharmacology. Prerequisite(s): Enrollment in the CMHC program. Graded (A-F) only.

SUSPENDED COURSES
