ANTH 214/ENG 214 - Language in the USA

Catalog description: This is a generic description

4 credits

Provides an introduction to linguistic anthropology through several examples of languages in the United States, which include indigenous (Native American) languages, colonial languages, languages introduced through recent immigration, and languages that newly developed in the United States. Topics include an overview to language usage patterns and norms; how language is linked to personal and group identity; an introduction to linguistic analysis; how languages differ, change and influence each other; and how language usage and ideologies both reflect and affect policy. University Studies Explorations - Strand F. (Cross-listed with ENG 214 .)

BA 476 - Business Ethics

Catalog description: This is a generic description

4 credits

Provides a value analysis of the role of business and personal ethics in the organizational environment. Students are exposed to ethical theories, diverse economic systems, contemporary moral issues, actual cases, and concepts of justice and social responsibility. Open to non-admitted business students and non-business majors. University Studies Strand I.
